3-Who is in charge of Dulce Base?

The CIA?

No!

NSA?

No!

Guess again. Is it DOD, DOE? Perhaps the USAF or Naval Intelligence? No!

It is a Shadow Government which influences and controls every aspect of our daily life, including the media, world’s economy, businesses, commerce, trade, oil’s price, commodities, banking system, creating wars, overthrowing regimes, and even fashion. This is a sensitive subject I will be discussing in a forthcoming book.

For the time being, let's focus on Dulce Base; its scope, mode of operation, underground facilities, compounds, and its alleged atrocious genetic manipulations carried by the Grays.

4-Information and accounts:

The precise and astonishing information about Dulce as provided in this report were obtained directly from:

- 1-A meeting at Area 51, which gathered some of the most powerful personalities from our government, top brass, members of a "Shadow Government", Director of the United States Flight Agency, the Air Force, head of the "Intelligent People Agency", the Secretary of National Safety, and even the "Vice Proofer".

The meeting was set up to discuss "urgent" and very delicate subjects pertaining to UFOs, and alleged atrocities caused by HEE "Human engineering experiments", and GHP "Genetic Hybridization programs" conducted at Dulce Base, carried on by the Greys, with full consent of some of the most powerful and secretive units/divisions from our government. The meeting did happen; this is an undeniable historical fact.

Unfortunately and regretfully, we do not have a footage or a recording of the meeting, despite the fact that the meeting was filmed and recorded by the military.

As expected and anticipated, many of us will always doubt the veracity and credibility of the event.

- 2-A sudden (Unscheduled) inspection of the base by one of the most descent United Lands' generals, with full approval from the Secretary of National Safety.
- 3-Eyewitnesses' reports and official attestations submitted to the "White Lodge", and the Secretary of National Safety.

PART I
IDENTIFYING DULCE BASE
Generalities

At the very beginning:
Officially, Dulce Base does not exist. The Base was jointly created by the Grays and a shadow government.
Aliens who work at Dulce speak perfectly English.
It was reported that many of them, especially the tall ones, are not considered and/or called aliens by their human counterparts.
Some very well-informed co-workers and insiders believe they are “HH”, acronym for human-hybrids, others call them Intraterrestrials”. The IM, acronym for the “Internal Manifesto” classifies them into three separate categories.
And let the record show -whether you like it or no- that neither the CIA nor the NSA is part of the Grays’ genetic manipulations at Dulce.
Although the Intelligent People Agency, and the National Safety Agency played a paramount role at the dawn of the operations of Dulce Base, none of these two agencies currently exerts any control or power over the management, administration, and structural operations of the base.

The construction began in September 1958. It took the Grays (Intraterrestrials) 5 months to build 9 levels.
Apparently, the Grays and the shadow government took advantage of the huge natural caverns and labyrinths under Dulce.
The legendary Dulce Base lies under Archuleta Mesa on the Jicarilla Apache Indian Reservation, near the town of Dulce. Its underground compound consists of 11 levels, and 98 compartments.
It occupies an estimated underground area of 2.5 square miles. Dulce Base has 3 separate exits; one of the exits leads to a 15 miles long underground tunnel. At the far end of the tunnel, more precisely, once you exit the tunnel, you will face a small rocky area which surrounds a circular helicopters’ landing station.
There is no physical access to the landing area from the outside (There is no physically visible access to Dulce Base from the surface, and/or surrounding areas.)
Approximately 600 Grays work and live at Dulce Base (Estimated figures of 2003). This number was reduced to 375 in 2010.

*** *** ***

Security:
Access to the base is dictated by a rigid protocol, usually Top Secret and Above Top Secret.
The deeper you go into the underground compound, the security becomes stricter and more sophisticated.
The base is guarded by a para-military group which is under the direct control of a shadow government. The para-military group does not report to the military.
The para-military group is not a military formation per se, since all men are recruited and/or assigned to various duties not by the Pentagon, but by a shadow government.

There are no traditional military ranks among the men. The three known ranks are: a-Sergeant, b-Major, c-Colonel. Approximately each 9 months, guards are rotated, and/or transferred to undisclosed locations for psychological reasons. At the end of each shift, personnel is searched, and their body-weight is checked out. Nobody can smuggle out or hide anything. The personnel is paid in cash bi-weekly.

On some levels, "BI (Breath-Identification), or "BR" (Breath-Recognition) as called by insiders is used for personnel's identification purposes. And no matter where you look, you will always see security-cameras. Inside the compound, and starting from the first level, you will notice side doors everywhere, and numerous exits and entrances, loaded with security features, some visible, others hidden.
None of your cellular and smart phones would work inside Dulce Base, and there are no regular TV monitors or sets. You are totally isolated from the outside world.

*** *** ***

Ventilation System:
The ventilation system was designed and installed by the Grays. Nobody knows exactly how the ventilation system functions. One of the most incomprehensible characteristic features of the Grays' ventilation system is the total absence of air exhausts.

*** *** ***

Special/unidentified material:
In some of the hospitals wards and genetic labs, not all the walls and divisions' screens (Dividers) are made from traditional or known materials.

Some are made from a gluey opaque substance, others from “consolidated plasma”.

*** *** ***

Transportation:
On some levels, special magnetic pads are used for “departmental navigations”, meaning to enter and/or to exist designated areas, units, rooms, labs, and sealed compartments.
Dulce Base’s underground transportation’s system consists of a very sophisticated, elaborate, and vast network (Tracks’ Web) of “Shuttle Cars”, and “Spiral Vehicles” which run around the clock on magnetic and electric “Tracks” (Called sometimes TR and Strips) intersecting and crisscrossing the entire United Lands, part of Mexico, and Canada.

The SMS “Spinning Mobile Satellite” looks like a silvery metallic spinning top, approximately 8ft in diameter, which comfortably accommodates four to five passengers, and corkscrews its way downwards centrifugally around a rod using a form of magnetic propulsion.
From the fourth level on down, the Spinning Mobile Satellite “travels” horizontally and vertically to reach various destinations.
Dulce’s Elevators have no apparent cables; they function electronically, and magnetically. Magnetism also supplies electrical light, which usually comes from flat, circular objects; there were no regular light bulbs in sight.
Dulce Base does not have a so called electrical grid. Thus, it will never suffer from a blackout, or any form of a failure of electrical power supply.
The source of its energy and “electric “power is totally unknown to us. Even the genius Dr. Story Teller could not figure it out.

*** *** ***

Food:
Food is brought in via “Tracks”; an underground system of transportation and delivery, which uses vehicles made from fiberglass or similar materials.

*** *** ***

Dulce-Grays’ mind-bending programs and projects. Many extraordinary projects and studies were developed at Dulce. One of the most bizarre and incomprehensible projects is “The Humanoids-US “BER Program”, which is closely linked to the Men-in-Black, known to insiders as the bioelectric extraterrestrial robots (B.E.R.); it

is totally unknown to the general public.
The program started in September 1986 in two locations in the United States; the first, at a laboratory operated by a leading university, and the second one at Dulce.
Essentially, BER explores the possibility of using human-like robots capable of acting like human beings. These robots were intended to be used as replacement for the so-called MIB (Men-in-Black).

One of the advantages of using these robots, is their EM effect on the human brain, particularly, while interacting with abductees, and tracking people who were used as guinea pigs in aliens-US mind control programs.
A French-American scientist, allegedly working for a scientific intelligence agency, said, verbatim, word for word, “These robots unlike robots manufactured by companies to replace man-power tasks, move, act and communicate like human beings. They look like us, and in many instances, they show a degree emotion, and ordinary human reactions.” The effects of EM on some areas of the human brain and particularly on people who are considered EH (Electrically Hypersensitive) produce multiple and various psychological, neurological and physiological symptoms, such as:

- a-Visions
- b-Hallucinations
- c-Fear
- d-Anxiety
- e-Being OOB (out of body)
- f-Unconsciousness
- g-Feeling of being touched and watched

The external EM interferes with bioelectrical processes within very specific areas of the brain cortex.

BER and BER-MIB projects (Some call them programs) are not phantasmagoric ideas. They exist.
Some conspiracy theorist almost guessed what was going on, through alleged leaks, but still, they have no clues.
By pure coincidence, author Raymond E. Fowler vaguely guessed something about these bioelectric robots, when he talked about the Watchers (The Gray entities) and called them bio-electric robots.

PART II: AREA 51.

The most unique meeting at Area 51.

Building “S2”. Time: 11:00 AM.
Security is intense. MPs are everywhere.
More than 50 guards armed to the teeth surround Building “S2”, where the meeting took place.
The area is deserted. Not a soul.
It looks like a phantom town.
Not a single car in the parking lot, except 5 jeeps parked in front of Building “S2”.
All flights to and from Area 51 are cancelled.
Two large transport/cargo airplanes are grounded at the end of a runway. A civilian passengers’ plane known as “Janet” which daily transports employees to Area 51 is seen at the very end of runway 2.
The only thing moving are the security cameras and a strong swirling wind covering empty buildings with a grayish dust and waves of a steamy fog.
Because of this extraordinary, and “Above top secret” meeting, civilians, engineers and aliens working at Area 51 were transferred to another facility.

Dr. Hutton and R.M. are waiting to be admitted to the meeting:
R.M. and Dr. R. Hutton are inside a tiny reception room in Building “S2”. They are waiting to be received by The Secretary of National Safety, and The Vice Proofer.
They have been waiting for half an hour.
Why Dr. Hutton and R. M. were brought to Area 51?
And who are they?
Dr. Hutton is an expert linguist, and allegedly very familiar with some “aliens’ languages”. In addition, he served at the prestigious “Blacksmiths Institute”, famous for its elaborate museums, collections of mind-bending artifacts, and tablets from ancient civilizations.
R. M. is an absolute authority in the field, and the main witness who brought irrefutable charges against the Grays, and macabre governmental agencies/units, and secretive groups overseeing, aliens, extraterrestrials/intraterrestrials’ affairs, and financed by the government.

R.M. is fully aware of what is going on at the Dulce Base; R.M. has visited the Dulce Base, and captured on film the genetic experiments, and Grays' hybridization experiments at Duce. It is expected to see her footage at the meeting.

Inside the tiny room, Dr. Hutton and R. M. are arguing.
Dr. Hutton seems anxious, while R. M. is totally relaxed.
Dr. Hutton talking to R. M.
-You told me yourself, aliens are scary. They don't have eyes, no retina, they don't have ears, no hands, no lungs and no body's organs…they are useless to them. They are frightening biological machines with three fingers!
It is horrifying!
R. M.: Horrifying to you…not to billions of highly advanced civilizations. They are just different.
Eyes like yours are not needed in outer space…they use different organs to see… some use skins pores, others cells in the brain.
And the brain is not necessary located inside a skull; it could be found anywhere under the skin, or on the surface. Nothing wrong with that. Nothing horrifying at all.
Your people are doing the same thing. Your government created half humans-half machines…Prefabricated hands and feet, humans-robots without soul, without lungs and without hearts.
I know what is going on at Walt Disney studios and Dulce! And all these hideous creatures you mass produced, and copied from Derinkuyu and Gobekli Tepe.
And how about those awful Type BE hybrids you created with the Ardi-Nishtaar (Grays' name)?
They are all over New York, Washington and Nevada! Ask your friend General Ramsey about the Black Conic Box. Ask him about the Compressor…The BCB and Adenosine Triphosphate, the ERW…the AGM-114N…The Plastic Neutron Bomb.
Dr. Hutton: Take it easy, will you? Slow down.
How did you know about all this?
R. M.: We used the Miraya. We monitor everything you do…how your Ardi-Nishtaar friends abduct people…what they do to them at Dulce with the full consent of your government. I am taking you there as soon as I finish my business here.
I will show you the horrors of your government and the Ardi-Nishtaar on the Miraya...They (Greys) are bad news.
They wipe out the memory of abductees, and totally alter their personality. They have at their disposal all the mental, intellectual, scientific, paranormal, and physical means and tools to paralyze, handicap, incapacitate, and control the physical, mental, emotional, biological and psychological faculties of abductees.
Dr. Hutton (Looking at his watch and not listening to R. M.
Where is everybody? OK, what's your plan now?

Dr. Hutton: Are you finally going to deliver your message?
R. M.: Will see. I want to find first, what they have on their mind. I will study their reaction, and I will go from there.

A captain enters the room.
Captain: They are here. Let's go. The Vice Proofer is here too.
R.M., Dr. Hutton and the captain exit the small reception room, take a long and narrow corridor and head toward the meeting room.

*** *** ***

The meeting-room. Building "S2".
Time: approximately 11:15/11:20 am.
The room is packed with people.
Cameras and electronic sensors everywhere.
On the left side of the room, a gigantic map of Europe, Russia, the Middle East, the Near East, Asia, Earth's seas and oceans is pasted on 20 foot long wall. The map looks sterile; it has no luminous dots, slots, and map marking symbols. But its size dominates the room.
The three dimensional size of the map seems to hide lots of military secrets.
And if you look at the map from a particular angle, it seems to change colors, and particular spots appear to be brighter than the rest of the map.

Excerpts from what it was said at the meeting.

-R. M.: With your permission Mr. Vice Proofer, I would like to go to Dulce Base.
-Vice Proofer of the United Lands: What is so special about Dulce Base? And where is Dulce Base?
-R. M. (Smiling): You knew about Dulce Base, long before you became the Vice Proofer of the United Lands.
Dr. Story Teller gave you a full report on Dulce, Mr. Vice Proofer…File DBP, or was it DBF (Dulce Base Funding)? You Okayed the project, sir!

Note: The Vice Proofer of the United Lands whispering in the ear of the Secretary of Safety:
-It's getting dirty. It is very embarrassing.
Why should everybody know about this?
I am out of here. You are in charge. Deal with it.

The Vice Proofer of the United Lands excuses himself and leaves the room. Noises in the background.
Perfect timing for gossiping.
Attendees start to talk to each other. Almost everybody in the meeting room, suddenly has something to say to the person sitting next to him/her.

Secretary of Safety (Addressing the attendees):
-The Vice Proofer has something urgent to attend to. Something came up. Will take a short break, folks.
Absolute silence in the room.

Secretary of Safety (Asking R. M.):
-Why do you want to go to Dulce? I was told that you were there before.
-R. M.: Because I want General Ramsey to see for himself what is going on at Dulce. Do I have your permission to go to Dulce Base?
-Secretary of Safety: You want to go to Dulce?
Go to Dulce.
But may I ask why you are so interested in Dulce.
And where the hell is Dulce?
And why General Ramsey?
-R. M.: I will tell you where Dulce is. It is on the Jicarilla Apache Indian Reservation, under Archuleta Mesa.
Dulce is where your government and the Ardi-Nishtaar are conducting genetic experiments on abductees, women, children, kidnapped prostitutes and homeless people, where atrocities and crimes are constantly committed by your physicians, and collaborators of Ardi-Nishtaar.
Secretary of Safety (Interrupting):
-Wait, wait a minute please. Ardi…Ardinisar?
What is that?
-R. M.: Aliens, sir, aliens…
-Secretary of Safety: You are not serious! Aliens?
Is it true, Admiral Roscoe? General Ramsey? Aliens?
-Admiral Roscoe: No sir. She doesn't know what she is talking about. There is no

Dulce Base.
Secretary of Safety: General Ramsey?
General Ramsey: I have no clues, sir.
I never heard of Dulce Base before.
Secretary of Safety (Talking to Peggy Arnold, his aide): Peggy, get me the Joint Chief of Staff.
Peggy Arnold phones the Joint Chief of Staff.

-Peggy Arnold: He is on the line, sir.
-Secretary of Safety: General. A quick question.
What do you know about Dulce Base that I don't know?
-General Griffith Dulce? Nothing. Why, Mr. Secretary?
-Secretary of Safety: Nothing? Absolutely nothing!
You don't know what is going on at Dulce, and you never heard of Dulce?
-General Griffith: No sir.
-Secretary of Safety: Dulce is where aliens are conducting genetic experiments on abductees, General.
So you never heard of Dulce?
-General Griffith: No sir.
-Secretary of Safety: I will call you back. Thanks General.

Secretary of Safety asking Director Cassey (Director of the Intelligent People Agency.)
-Director Cassey, do you know anything about Dulce?
-Director Howard Cassey: The Air Flight (United Lands Air Power) used the base for a few months.
But it is abandoned now, Mr. Secretary.
-Secretary of Safety: There is no Dulce!!
Nobody knows a thing about Dulce!
The Joint Chief of Staff…General Griffith, Admiral Roscoe know nothing about Dulce! Who does?
General Ramsey has no clues! The Intelligent People Agency never heard of Dulce, Director Cassey is telling me, it is an abandoned place. Admiral Roscoe says it does not exist!!
R. M.: I will take you there Mr. Secretary.
It is an enormous military base with 12 underground levels…seven levels are now fully operational.
It is as big as The North Side of Area 51. It is a top secret base, sir. Even the Congress, the National Security Advisor, know nothing about it.
-Admiral Roscoe: Mr. Secretary, Mr. Secretary! This is crazy!

Furiously, Dr. Hutton stands up, points his finger at Admiral Roscoe and shouts…
-Dr. Hutton: Shut up! Liar! You were there last week with Dr. Story Teller.
Dr. Hutton is transformed into an enraged beast.
He leaves the table and walks toward R. M., stands by her side and holds her hand.
R. M. is delighted. Her face glitters.
Admiral Allan Roscoe (Shouting at Dr. Hutton):
-You are finished!
Dr. Hutton: Screw you!
Admiral Allan Roscoe: Screw yourself!
Secretary of Safety: Dr. Hutton, and you Admiral Roscoe... behave, please. Both of you.

Dr. Hutton (Talking calmly to the Secretary of Safety):
-Mr. Secretary, please watch very carefully…
R. M. is going to project on the screen…right this minute, what aliens and some of our officers did at Dulce…horrors and atrocities beyond belief. You are going to see with your own eyes what they did and still doing at Dulce.

***** *** *****

Scenes from Dulce projected during the meeting:
R. M. camera projector is running.
Scenes shot at Dulce Base are projected on the wide screen; scenes of atrocities, horror, and genetic manipulations of abductees. Aliens operating on abductees.
Dozens of abductees are constantly brought to a large room. Alien doctors in genetic operations room bring in abductees and operate on them.
R. M.: Here…we see the MOR (The Medical Operations Room). As you see, it is full of surgical tables, perhaps forty or fifty of them, on which were stretched human beings, each attached to the table and unable to move, but obviously not sedated, since they are still screaming or moaning.
People, usually drifters, homeless and prostitutes, all kidnapped, Mr. Secretary, are attached to tubes, into which blood was pouring in huge quantities.
Please watch the blood…the blood is turning into a filthy green color, like rotting vegetation. The blood is converted to a suitable type for some of the aliens.
Look at the Grays who are operating on people…they are small with big bug eyes and pointy faces without any expression or feeling. Their skin is shiny and moist.
Each operating table has complicated machinery that was poised right on top of the person who was strapped to it. On some of the tables, machines and tools are lowered so that needles could be extracted from automatically.

The needles reach every part of the human body, the face, the eyes, the ears, genitals, stomach, you name it.
The victims scream as they see the needles approaching them… some have, and few are already dead.
At the far end of the room, some are still alive but barely so, and some had arms and legs amputated from their bodies. Once the experiment is over, every single person will die. They are expandable.
Now look at the ceiling of this slaughter house… meat hooks, on which arms and legs and even heads are hanging, like a butcher's warehouse. On the side of the tables, the round ones, there are large glass tanks where human organs are dumped…hearts, livers, lungs, legs, all preserved in liquids.
Sir, look at the severed arm, on the left of the screen. It is attached to a reconstructed human body with eyes stuck in the middle of a half-formed face, each eye is different. The face is mutilated, and has no nose and no chin. Behind the table, we see heads, arms, legs, torsos on a conveyer. Above the conveyer, there is a baby's head.
A floating baby's head! Sometime the babies' heads and limbs get attached to adults' bodies.

Next… a surgical ward full of large tanks. It looks spotless but is intoxicating, because the tanks contain malodorous liquids. It smells like that because this is the warehouse, where the aliens keep all the spare parts….spare parts from capitulated human bodies.
At the far end of the ward, there are huge tanks full of severed human heads, torsos, arms and legs. The tanks as you can see are arranged in the same manner. Those are the big tanks. In smaller tanks, the Grays store interior organs, like livers, hearts, kidneys, so on. The red tanks, on the left of the screen, are blood containers, some red, some dark green.
Now pay attention to this alien who is approaching a tank. He is reading a chart, like a hospital chart. The one which is positioned above the tank. A line on the chart will lit up, and a tool will now come down, and enter the tank, and a robotic hand attached to the tool will pull out something from the tank and place it in a tube, along with some of the liquid. The robotic hand is now moving forward, and hands the tube to the alien.
The alien is lifting the tube, he is looking at the chart, and the robotic hand is moving to the left.
Now, the alien is taking the tube to a wall and places the tube against the wall. I don't know what he is doing.
The walls in the ward are not solid. They look solid, but are made from a substance totally unknown to us. It is not cement, steel of something like that. We don't know.

Now, we are going to an adjacent room; this is the aliens' samples and specimens' room. As you can see, the room is packed with surgical tables.
Do you see the doctors around the tables?
Well, they are not doctors. They are aliens. And each one of them is doing something to human spare parts. Around the large oval table, we see aliens trying to fit the spare parts on some sort of creatures. Look sir at the far end of the room, you will see military personnel, ours! They were hand-picked by Admiral Roscoe.
Look sit at the walls, they are highly irregular, see how they move back and forth, in and out like rubber. Amazing!
We never figured out what they made from.
It could be plasma, I don't know. But what kind of plasma?

The projector is still running.
OK, what we have here… Oh yes, Ward 3.
On the right of the screen, you see dozens of tables where aliens line up human bodies' parts.
Interruption:
General Ramsey asked the Secretary of Safety:
-Mr. Secretary, can we take a short break?
-Secretary of Safety: Sure, sure General. We will reconvene in 15 minutes.

Back to the meeting room
-R .M.: May I continue Mr. Secretary?
-Secretary of Safety: Go ahead.
What are we looking at now?
-R. M.: On the left, we see victims moaning and screaming, they are attached to tubes. Watch Mr. Secretary how the aliens are extracting their blood. In the center under the huge light, needles are penetrating the nose, the mouth and private parts of women.
Right behind them, dozens of sedated children and babies are attached to stretchers. Some dead…some are still alive, and look at these babies who have already lost their eyes.
The eyes of the babies were extracted by the aliens. They use them for spare parts.
Mr. Secretary, please look at the tubes. The Ardi-Nishtaar (Alien Grays) use them for blood transfusion. The blood of women and children is sucked up from their bodies and poured into containers.
Watch now how human blood is turning blue.
Human blood becomes the Ardi-Nishtaar's blood.
Later on, the Ardi-Nishtaar will mix it with cows' blood they mutilated all over America.

-Secretary of Defense: Horrifying! Barbaric! Unreal!
-General Ramsey: Mother of God!
-Dr. Hutton: Next scene.
Mr. Secretary, watch the needles lowered down from the huge machine attached to the ceiling, see how the needles penetrate the bodies of the abductees, their noses, mouths, eyes, under the belly, their genitals.
Abductees are screaming, and faint from pain.
On the round tables, under the sensors, watch how the aliens remove babies' eyes from their sockets.
It is a massacre, Mr. Secretary.
Look at all these people cut in half. They are spare parts.
Are you watching admiral Roscoe???
Women, children, and men who are still breathing will be butchered soon, and their bodies' parts will be stored in containers, tanks, and ice-bags.
-Secretary of Safety: What are those things hanging from the rods?
-Dr.: Hooks…they are hooks, Mr. Secretary.
Hooks for human bodies' parts.
Meat hooks like in a slaughter house.
-General Ramsey: My God! Mother of God!
Are these amputated legs, hands…?
-Dr. Hutton: Lungs, and heads too!
-Secretary of Safety: Enough….I saw enough.

Admiral Roscoe goes ballistic. (Screaming):
-Mr. Secretary, can't you see? It's a trick?
A photo-montage!
-R. M.: Mr. Secretary, let me do this, please.
(Pointing at a can). This footage was shot by our technical team under the supervision of Lt. Colonel G. R.
In this footage you will see how Dulce's underground is built and structured, the aliens' labs, the human bodies storage room, the tanks, the cages, how aliens operate on people, so on…you are going to see everything!
Interrupting, the Secretary of Safety tell R.M.:
-Go to Dulce.
(Looking at General Ramsey) You too General. I want a full report, pictures, slides, films, get me everything!
-R. M.: Dr. Hutton too. I want him to go with us.
-Secretary of Safety: Fine.
We have to arrange a transport for you. Take my plane.
-R. M.: No need Mr. Secretary. Transport is under our feet.

Secretary of Safety: What do you mean?
-Dr. R.: Hutton: The tunnels…the tunnels, Mr. Secretary.
There are 25 underground tunnels…Right below us.
-Secretary of Safety: Where? Here? At Area 51?
-Dr. Robert Hutton: Right here, sir.
They stretch all the way to Washington, DC, The White House, the Pentagon, the CIA, Langley, Virginia, NASA, Manhattan, Colorado, Maryland, Florida, Pennsylvania, Alaska, Hawaii, the Pacific, and Dulce.
You name it, sir. They are everywhere!!
-Secretary of Safety: I'll be damned!

While Dr. Hutton is still talking to the Secretary of Safety, Admiral Allan Roscoe is whispering in the ear of Lt. Colonel J. B., his military aide, who is seated next to him.
-Admiral Allan Roscoe: Get rid of them (Referring to R. M., and Dr. Hutton.)
Lt. Colonel J. B.: How?
-Admiral Roscoe: Call the Base. Talk to Major Higgins and Zarro (Note: Zarro is a gigantic alien at Dulce Base). They know what to do.
The military aide leaves the room from the back door.

The Underground of area 51 -UTTCS.

Sergeant Collins takes General Ramsey, Dr. Hutton and R. M. to the second level of UTTC (Underground Tram Transportation Central), also called Central Station, and the Tram; a 55 foot high by 45 foot wide compound of underground tunnels and trains connecting Area 51 to a web of secret undergrounds facilities and locations around the country.
Trains are coming and going in multiple and different directions. Lots of activities. Few Grays are spotted.
-General Ramsey: Where are we, Sergeant?
-Sergeant Collins: UTTCS; Central Station, sir.
-General Ramsey: What what? UT..TC?
-Sergeant Collins: They are tracks sir.
Track TR1, like Air Force 1, sir, is a direct track to The White House.
-General Ramsey: The red one?

Sergeant Collins: TR2P sir, it takes you directly to The Pentagon, and to Washington's National Airport.
-General Ramsey: The green one?
-Sergeant Collins: We have 2 of those, sir…2 green lines, sir. One to DARON, one to Canada, sir.
-General Ramsey: Canada? How about that!
And the gray line?
-Sergeant Collins: Straight to Dulce Base, sir.
-General Ramsey: Very appropriate.
Take me to the gray track.
How fast is the train?
-Sergeant Collins: Each unit (Car, train) is as fast as OXCART Mach-3, sir.
-Dr. Hutton: 3 times faster than the speed of sound.
R. M. remains quiet. Not a word.
She is listening to everything.
General Ramsey's mind is somewhere else. He mumbles a few words.
Dr. Hutton is laughing.
-General Ramsey: What are you laughing at?
-Dr. Hutton: A sergeant knows more than a 2 star General.
-General Ramsey (Highly upset): Tell me about it!!
You can say that again!!
Gray line, green line, red line…tracks tracks…Canada… Roscoe son of a bitch!
Did you know about these tracks?
-Dr. Hutton: Yes general.
-General Ramsey: How come?
-Dr. Hutton: I saw R. M.'s report.
-General Ramsey: Where is this report?
R.M.: I will send you a copy, general.
-General Ramsey: Did you send a copy to the President?
-R.M.: Yes I did.
-General Ramsey: And?
-R. M.: Nothing.
-General Ramsey: What do you mean nothing?
-R. M.: Nothing.
I sent the report and I thought somebody from the White Lodge will get in touch with me.
-General Ramsey: And nobody did!
-R. M.: Nope!
-General Ramsey: I see.
Who else knows about the report?

R. M.: Cassey, Roscoe, the Vice Proofer…
I don’t know who else.
-General Ramsey: At the meeting the Vice Proofer said he didn’t know a thing. Is he lying?
-Dr. Hutton: He is just following orders.
-General Ramsey: Orders from whom? The President?
-Dr. Hutton: I don’t think so.
-General Ramsey: Who then? Talk to me.
R. M.: General, have you ever heard of the term shadow government?
-General Ramsey: Are you telling me somebody higher than the President of the United Lands is pulling all the strings?
R. M.: You got it.
-General Ramsey: Don’t worry I will find out.
-Dr. Hutton: You will never find out, general.
-General Ramsey: We will see about that!
Note: General Ramsey never found out a thing about the whole affair, who is in charge, and what was or is the Shadow Government’s agenda. To this day, very very very few people know who are behind the Shadow Government.
It appeared to me that General Ramsey began to doubt the honesty and candor of the Vice Proofer.
He felt that the Vice Proofer was not telling the truth; perhaps absolute secrecy was part of his nature, having previously served as Director of the Intelligent People Agency.

Inside the train.

Sergeant Collins, General Ramsey, Dr. Hutton and R. M. enter the gray train. General Ramsey seems to be puzzled.
-Sergeant Collins: It is easy to operate the unit, sir.
You push the gray button, here sir, and you are on your way to Dulce, sir. You will be there in a few minutes.
-General Ramsey: The black one? The black button?
-Sergeant Collins: This will bring you back, sir.
-General Ramsey: And the red one?
-Sergeant Collins: If you want to stop, sir.
General Ramsey (Pointing at a square on a small dashboard):
-What is this?

Sergeant Collins: Emergency sir. But nobody uses it, sir. Security will know immediately if something is wrong, sir.

PART III
AT DULCE BASE

At the Dulce base: Second level's entrance.
In no time they reach Dulce Base's second underground level. They exit the train and are received by two men in black uniforms, and a Major standing by the gate opens an immense metallic door leading to a spacious hall.
-General Ramsey: I am General Ramsey.
-Major (Saluting): Major Glennan, sir.
We were expecting you.
-General Ramsey: Who is in charge here?
Who is your commanding officer?
-Major Glennan: Admiral Allan Roscoe, sir.
General Ramsey: Who???? Roscoe!! Roscoe again!
The son of a bitch! I never trusted this bastard.
R. M.: Surprised, General?
-General Ramsey: You bet your ass lady.
Pardon me Madam. I should have known.
Roscoe, the fuckin' piece of shit!!
Sorry again my lady. Excuse my French.
-Dr. Hutton: Expect more surprises, general.
-General Ramsey: Tell me Major…Does the Joint Chief of Staff ever visit the Base?
-Major Glennan: He was here last week, sir.
-General Ramsey: The Vice Proofer?
-Major Glennan: Who sir?
-General Ramsey: The Vice Proofer of the United Lands?
-Major Glennan: No sir. I don't know, sir.
I don't think so, sir.
-General Ramsey: Admiral Roscoe?
-Major Glennan: Yes sir. Two three times a week.
-General Ramsey: Anybody from the Intelligent People Agency?
-Major Glennan: No sir. I haven't seen any.
-General Ramsey: Sure?
-Major Glennan: Positive sir.
-General Ramsey: OK Major, let's start with the first floor.
Major Glennan: Sir, the first floor is closed. We sealed the area…We had major

radio-active le….
-General Ramsey (Interrupting): Never mind, Major. Take me to the second floor.
-Major Glennan: We are on the second floor, sir.

Dulce Base: Second level.

Starting from the second level, compartments are divided into large operation rooms, separated by elaborate long corridors, curving at 90 degrees every hundred feet or so, with doors dropping down from the ceiling to seal off segments of the compound, in the event of radiation leakage, or any matter related to internal security. Doors in the corridors have circular porthole-like windows within what is a whitish metal of extraterrestrial origin.
None of these metallic alloys are made on Earth, due to Earth's gravity, and as such have to be done in orbit aboard an alien ship.

The Major takes them through a long corridor leading to a dark small room.
They enter the room, and get into some sort of a square vehicle with a silvery metallic spinning top, approximately 8ft in diameter.
It corkscrews its way downwards centrifugally around a rod using a form of magnetic propulsion.
-General Ramsey (Asking the Major): What do you call this vehicle?
-Major: SMS. "Spinning Mobile Satellite."
-General Ramsey: Fancy.
What the hell is Spinning Mobile Satellite?
Forget it.

The vehicle stops. They exit the SMS.
-Major Glennan: This way, sir.
-General Ramsey: Where to? Where are we now, Major?
-Major Glennan: We are almost there, sir.
We have to take the elevator down to the first compartment of the second floor.

Inside the elevator:
They get into a fiberglass box (elevator). General Ramsey notices the elevator has no cables.
-General Ramsey: No cables?
Where are the cables of the elevator?

-Major Glennan: It operates electronically…magnetically, sir.
-General Ramsey: Alien technology!
-Major Glennan: Yes sir. We don't have electrical wirings on the Base. Everything is controlled electronically.
General Ramsey nodding his head.
-General Ramsey: No MPs I don't see any security guards here?
No Guards?
-Major Glennan: Security is very tight on the Base, sir.
-General Ramsey: Face recognition, voice recognition.
-Major Glennan: No sir. We use the latest alien technology on the Base.
R. M.: Breath recognition, general. They check your breath. You exhale on a screen, and the screen identifies who you are.

The blue board room/compartment 1-level 2.

Finally, they reach compartment 1-level 2. They step inside an oval room. A huge blue-gray board pasted on a wall displays names, numbers, symbols and pushpins in various colors. Each pushpin emits different light's sparkle.
-General Ramsey: What do you call this room?
A waiting room?
-Major Glennan: No sir.
You have to push on this (Pushpin), and you will see...
-General Ramsey (Interrupting):
-See what?
-Major Glennan: If you touch the gray pin, one of the hidden doors in the room will open up, you walk on a magnetic pad and it will take you straight to the aliens' headquarters. If you touch the red pin, you will be directed to the hospital. If you touch the silver pin, another door opens up, you ride a trolley, and it will take you to the "Birds" anti-gravity flying discs, you might call it UFOs if you want. So on.
-General Ramsey: Take me to the hospital?
First, let me ask you this, how many floors do you have here?
-Major Glennan: In total?
-General Ramsey: Yes in total. And I want to inspect all of them.
-Major Glennan: Ten levels, sir.
(My personal note: There are 11 levels.)

Major Glennan touches the red pin. A door opens up.

They all step on a magnetic pad. The pad slides its way to a huge ward. Then all of a sudden, General Ramsey changed his mind, and decided to start his inspection with Dulce's second level. So he ordered Major Glennan to take him to the entire complex of Level 2.
And this is what General Ramsey, Dr. Hutton, and R. M. saw. (Note: Basically, what they saw is almost identical to what R.M. told the attendees at Area 51 meeting.)

Dulce Base's underground levels.

The second level:
The second level is packed with offices. It functions as an administrative headquarter, as well as personnel and staff housing units.

The third level:
Upon entering the third level, wards and rooms expand in all directions, and are extremely extensive.
The compartments are divided into large rooms, separated by elaborate long corridors, curving at 90 degrees every hundred feet or so, with doors that can drop down from the ceiling to seal off areas in the event of radiation leakage, or any matter related to internal security.
One of the interesting characteristics of these doors in the corridors is the circular porthole-like windows within what is a whitish metal alloy unknown to us.
"None of these metallic alloys are possible on Earth due to Earth's gravity, and as such have to be done in orbit aboard their spaceships…" said an insider.
The third level looked like a real hospital used by the Grays for impregnation of female humans. It contains numerous cribs, and cages. The Grays remove the foetus, and place it for speeded-up growth in an incubator, creating hybrids. They also harvest human tissues.
On this floor the Grays experiment with genetic manipulation during the very early stage in the incubator. Sometimes, the results are quite monstrous; deformed humans were the norm – extra arms and legs, small or very large heads, and bizarre creatures, which did not really look humans.
Dozens of aliens are seen operating on patients. Hundreds of surgical tables which are lined up one after another in double rows, separate the alien doctors from an area designated to impregnate women abducted from all over the United Lands.

Numerous liens are spotted placing fetuses in incubators which create hybrids.
At the far end of the ward, there is a large area packed with cribs, and some sort of gluey blue-liquid tanks full of human bodies' parts; hands, feet, legs, bones, heads, eyes, amputated arms, livers, hearts, lungs, penises.
At the very end of this area under a series or arches, General Ramsey found horrifying-looking bestial creatures inside hexagonal and spherical cages, moaning, shouting and screaming like mad dogs.
Some looked reptilians with three eyes, others like apes, and a few, like medieval gargoyles.
On the left side of the ward, just before the exit, a huge corridor leads General Ramsey, R.M., and Dr. Hutton to a round room packed with aliens, harvesting human tissues.
Two long and narrow shelves, containing a large quantity of animals' part, (mostly cows) could not be missed.

The fourth level:
On the fourth level, there are genetic labs which create half humans/ half animals. Those who were placed in cages look horrific. Some of them had a reptilian look, some had fur, and others looked like gargoyles. Apparently, the Grays harvest human tissues and combine them with tissues taken from cows.

The fifth level:
On the fifth level, the Grays experiment with manipulation of the nervous system by various means.

The sixth level:
On this floor, the aliens maintain their living quarters, which look much like military barracks.

The seventh level:
On this floor, the aliens maintain their living quarters, which look much like military barracks.

The eighth level:
During General Ramsey's inspection, this level was not operational for some reason(s).

The ninth level:
Level nine store of fully grown creatures and tissues in vats, all dead. This includes tanks full of embryos in various stages of development, waiting to be used. This

level is kept immaculate, and as clean as the rest of the compound, but the smell of the chemicals is overwhelming.

The tenth level:
Level ten is the domain of human aura research, and other extra sensory abilities, including dreams, hypnosis, etc. The Grays are able to record dreams on very sophisticated machines. Dreams and hallucinatory visions are studied as part of the major advanced study of psychic powers and paranormal phenomena.

General Ramsey (Disgusted): I saw enough. Get me out of here!

PART IV: For the Record

1-Why the Grays are conducting genetic experiments?
Some of their experiments are aimed toward saving their own doomed race, which is dying slowly from Progeria, which they cannot control. “So now they want permanent bases on Earth, and much more scope for further experiments on a larger scale” said an insider. However, the Grays’ genetic manipulations ceased some eight to nine years ago.
Another reason was explained and given to us by the Grays themselves. In a passage from the Aliens’ Transcript, they told us that their intention is to create a better human race.

2-Alien abductions:
Alien abductions stopped some seven years ago.
Consequently, human bodies “import” is no longer *en force*.
Insiders refer to the acquisition and transport of human bodies as “Delivery”. Each human bodies’ delivery is numbered and classified under very specific “labels”, such as: CD, acronym for children’s bodies. AD, acronym for adults’ bodies. HD, acronym for homeless people. The riff raff category groups prostitutes, vagabonds, and drifters. TD, acronym for twins, who usually are used in telepathy’s study and research.

3-Altercations at Dulce Base:
Erroneously, these altercations refer to the alleged “Dulce Base’s War” between the Grays and US military; altercation incidents between our military/civilian workers and the aliens, particularly the Greys and the Orions.
It was also reported that military mass execution occurred at the Dulce labs.
The truth is this: The altercations occurred between the Grays and the para-military men, who were recruited and hired by the shadow government, and NOT the American army. Sixty men were killed.
A special para-military unit was called in to free a number of military personnel and scientists trapped on the third floor. According to one source, the unit was decimated, 66 soldiers were killed in the effort, and two civilian scientists were freed.
Apparently, an agreement has been reached between the shadow government and the Grays, which gave the Grays absolute freedom in conducting their own business

in the base. The para-military men and scientists were restricted from interfering in any activity, and the genetic operations conducted by the alien Greys.
In addition, it was allegedly agreed upon by both parties, that the para-military units shall not bear arms in the areas under the direct control of the aliens.
For some reasons, source said, “armed men entered two aliens’ compartments carrying sophisticated weapons and laser-beam guns. A clash between the aliens and the hired soldiers led to several fatalities. None of the alien Grays was killed.

What happened to…

General Ramsey: Early retirement. Faded in obscurity. Never to mention Dulce again.
Admiral Roscoe: Retired.
After retirement he created a very successful consulting firm. He made numerous appearances on cable television.
Never admitted anything about Dulce. He still insists that the base never existed; an absolute denial!
R.M.: Vanished.
Dr. Hutton: Retired from society, and became a recluse.
Left the United Lands permanently.
Dulce Base: All genetic manipulations ceased.
Currently used as a military equipment/materiel depot.

And a dark chapter from the unrecorded history of the United Lands came to an end.
Case closed.
